Question #	Questions	Responsible to Answer	Answer
Tyler Tech 001	What type of data would a county want to provide the portal to determine eligibility?	Business Subject Matter Expert	Refer to the provided Use Cases and Functional Requirements for more information.
Tyler Tech 002	Can you provide a list of participating counties?	JPA PM	The RFP states that 32 counties have signed on to the JPA and represent the likely initial set of solution users, with all 58 counties being the full potential user base. A specific list naming these 32 counties will not be provided at this time as it evolves. Please reference meeitng minutes from JPA website for latest updates.
Tyler Tech 003	Will this be a singular contract or will there be a separate contract with each jurisdiction?	JPA PM	The Authority intends to enter into a single primary contract with a selected Prime Contractor to provide the Statewide Solution and associated services to the Authority. While the Authority is willing to consider separate contracts for professional services and software solutions, these would be with the single selected Proposer, not individual counties.
